The alpha male, or papa wolf, sits at the top of the male hierarchy in the family and the alpha female, or mamma wolf, sits atop the female hierarchy in the family. In other words, male alpha wolves don't gain their status through aggression and the dominance of other males, but because the other wolves in the pack are his mate and kiddos.

What Alpha Wolves are REALLY Like | The Art of Manliness

The alpha holds his tail and head high, he lifts his leg to urinate while subordinate males usually do not. He is continually vigilant, not simply responding to obvious threats but maintaining a watchful eye at all times. Ultimately, the position of alpha male had nothing to do with age, size, strength or aggression.
