Anomaly. Tonya Kuper. 4.5 • 34 valoraciones; \$5.99; ... The world created by Tonya Kuper is well-rooted in science and the characters are immensely likable, with healthy doses of heart as well as humor. I haven't gotten very much sleep the last few nights but I still immediately downloaded the sequel, ...

Anomaly en Apple Books

I haven't read anything of Tonya Kuper until now, I honestly don't even know if she has released any other books, but the name and the cover on this one just made me want to buy and read it! This is certainly a book for physics buffs, because it introduces the Schrodinger experiment into the mix as if it's the perfect explanation to what happens in the book.
