Beginning in 1970, the Bell System produced several sets of smaller format handbooks in the 6 1/2 x 8 1/2 inch format. Each BSP was photo-reduced, so the additional typesetting step was eliminated. The binding was simple and inexpensive, like a paperback book, so the books were cheaper, but not updateable.

In 1886, Reuben H. Donnelly produced the first Yellow Pages-branded directory featuring business names and phone numbers, categorized by the types of products and services provided. By the 1980s, telephone books, whether issued by the Bell System or private publishers, were in nearly every home and business.
