Chapter 4. Introducing Cascading Style Sheets What you see on a Web page when you use garden-variety HTML tags like `<h1>`, `<p>`, and `<ul>`, pales in comparison to the text and styling on display in, say, a print magazine. If Web designers had only HTML to make their sites look great, the Web would forever be the ugly duckling of the media world.

Chapter 4: Applying CSS Styles to Webpages 10. 3.3 External Style Sheets.

- Style sheets are said to “cascade” because each type of style has a specified level of precedence (or priority) in relationship to the others
- CSS properties can be inherited from a parent element through a principle

# Acces PDF Chapter 4 Introducing Cascading Style Sheets

called inheritance.
