### **Purposeful activities for people with dementia: a resource ...**

The idea and framework of person-centered dementia care came from a British psychologist, Tom Kitwood (1937-1998), whose work on dementia care in Bradford, UK, led him to develop this model. One of the features of his training was to ensure that practitioners and other carers experience the physical, psychological and emotional challenges facing people with dementia.

### **Person-Centred Dementia Care | CareAbout**

The development of the person-centered care approach is widely attributed to professor Thomas Kitwood in the late 1980s at the University of Bradford in the United Kingdom. Person-centered care is a way of providing care to people by focusing on the person's uniqueness and preferences, instead of the disease, its expected symptoms and challenges, and the person's lost abilities.

### **Thomas Kitwood's Person-Centered Care for Dementia**

Living with dementia can have a big emotional, social, psychological and practical impact on a person. Many people with dementia describe these impacts as a series of losses and adjusting to them is challenging. This page aims to give people - and carers in particular - a better understanding of what it is like to have dementia.
