Earth Science Study guide answers. Nature of Science. The graph below shows the average monthly temperatures at one location on Earth over a three year period. What was the highest recorded temperature? 80 degrees . In an experiment, a student filled one funnel with clay and another with humus (dirt). She poured one cup of water into the humus ...

Earth Science Study guide answers - Marion County Public ...

If we looked down at the Earth from above the North Pole, we would see it spinning counter clockwise. This is why the sun rises in the east and sets in the west. If the Earth were spinning the opposite way, the direction the sun travels across the sky would also be reversed. It takes the Earth about 23 hours and 56 minutes to spin once on its axis.
