Fractal Market Analysis: Applying Chaos Theory to ...

The suggested fractal market hypothesis proposed in the book is an attempt to replace the efficient market hypothesis with something that incorporate randomness and market structure into its consideration. It is a reasonably good attempt but it does not offer traders a way to utilize the information. The analysis on S&P tick data was a good one.

Fractal Markets Hypothesis (FMH) Definition

Fractal energy follows the fractal hypothesis of the stock market (First introduced in the 90s by Edgar Peters). The Fractal Energy Hypothesis FEH is then defined as: "the self-similarity of financial price series comes about due to the interaction of investors with different investment time horizons."
