Color palettes used for Game Boy games For dozens of select Game Boy games, the Game Boy Color has an enhanced palette built-in featuring up to 16 colors - four colors for each of the Game Boy's four layers. If the system does not have a palette stored for a game, it defaults to a palette of green, blue, salmon, black, and white.

Game Boy Color - Wikipedia

Wikipedia. The Game Boy Color, or GBC, is a third-generation handheld console of the Game Boy family of video game systems made by Nintendo and the "big brother" of the original Game Boy (with a black and white screen, and earlier with just shades of green). It is essentially a Game Boy Classic, except with the much needed capability of showing color. It is also slightly smaller in size, and a ...
