I bought this surge protector when I bought my new Vizio 5.1 surround sound all black edition. I wanted to protect my products such as my 50' 4K roku tv, PlayStation, Xbox one, and Nintendo switch. I live in Florida and with it being the hurricane season I needed something to ensure me some safety.

This is the first line of defense against surges. GE panel mount surge protectors divert excess current to the ground in the event of a power surge and are used in GE PowerMark load centers for service entrance or subpanel applications. An LED indicates the proper function of the protection elements.

A thermal fuse is a cutoff which uses a one-time fusible link. Unlike a thermal switch which may automatically reset itself when the temperature drops, the thermal fuse is more like an electrical fuse: a single-use device that cannot be reset and must be replaced when it fails or is triggered. A thermal fuse is used when the overheating is a result of a rare occurrence, such as failure requiring ...
