Generac Engines

Generac's G-Force engine is the only engine on the market with full FLOW OIL FILTRATION, ensuring that oil is immediately present at the start of the engine and allowing the engine to quickly take on load. While competitive engines rely on splash lubrication, the engine provides filtered, pressurized oil to the main and rod bearings, improving the durability of the engine and ensuring longer engine life.

G-Force Engines - Generac Power Systems

Generac OHVI ® Engine Features Generac's OHVI engine utilizes the same type of pressurized oil lubrication used to give automobile engines long and trouble free lives and has a significantly longer life than many competitive engines—an unprecedented three to four times longer. Plasma Filled Moly Ring and Plateau Honed Cast Iron Cylinders
