The legality of Library Genesis has been in question since 2015 because it allegedly grants access to pirated copies of books and paywalled articles, but the site remains standing and open to the public.

Mac Os X Tiger Missing
The new Mac OS X 10.4, better known as Tiger, is faster than its predecessors, but nothing's too fast for Pogue and Mac OS X: The Missing Manual. There are many reasons why this is the most popular computer book of all time. With its hallmark objectivity, the Tiger Edition thoroughly explores the latest features to grace the Mac OS.

Mac OS X: The Missing Manual, Tiger Edition [Book]
Okay, If you are missing one of the install discs, there are two things you can do. You need to contact Apple in order to get OS X 10.4 Tiger or OS X 10.5 Leopard from Apple assuming they still have copies.

Missing Mac OS X install disc 2 - Apple Community
Because OS 10.4 Tiger is no longer the current Mac OS, you're in for some work and frustration, I'm afraid. First of all, Tiger disks will have to come from the resale market, not Apple. Be sure you're buying either the full retail (works on any machine) version or the one tailored specifically for your model (the ones that would have been in the box when it was bought).

Mac Os X Tiger Missing Manual - bitofnews.com
Its absence in Mac OS X Tiger, only becomes painfully obvious when you come across an archived or zipped file that needs to be expanded. Although, Mac OS X Tiger retains the built-in ability to compress files (see our earlier article: Mac OS X Panther | Zipping/Compressing Files), Stuffit is still a basic system requirement to expand compressed files.

Mac OS X Tiger, Missing Stuffit Expander On Clean Install ...
Mac OS X Tiger Edition The missing manual: This is another outstanding book by David Pogue. This is a much easier read then most technical books that are usually fairly dry reading. This book covers everything that comes with Tiger in great and easy to follow detail with an appropriate number of images for the topic.

Amazon.com: Customer reviews: Mac OS X Tiger: Missing Manual
This is a messy problem and I apologize in advance for the length of this message. I recently migrated a project from XCode 2.5 on Tiger to XCode 3.2 on Snow Leopard and ran into an unanticipated problem with the Intel C++ compiler 11.1 for OS X ("icc"). I want to build universal applications that...
