Most episodes of sudden cardiac death occur in the home, although victims who experience cardiac arrest in a public place have a much better chance of survival. 3 The initial recorded cardiac arrest rhythm is more likely to be ventricular fibrillation when cardiac arrest occurs in a public location rather than in the home, likely because patients who experience cardiac arrest in the home are ...

Sudden Cardiac Death | Tintinalli's Emergency Medicine: A ...
TBI is classified as mild, moderate, and severe based on the Glasgow Coma Scale (GCS) score. Over 80% of TBI is defined as mild (GCS 14 to 15) (mTBI) and is often called "concussion." 2 The label of mild, however, is a misnomer. mTBI may lead to significant, debilitating short- and long-term sequelae. Moderate TBI (GCS 9 to 13) accounts for approximately 10% of head injuries.

Head Trauma | Tintinalli's Emergency Medicine: A ...
The term pelvic inflammatory disease (PID) comprises a spectrum of infections of the female upper reproductive tract. Although accurate estimates of the incidence and prevalence of PID in the United States are lacking due to lack of mandatory reporting and reliance on testing data, it is a common and serious disease initiated by ascending infection from the vagina and cervix.
