Public Choice Concepts And Applications

Stearns and Zywicki's Public Choice Concepts and Applications in Law is the only course book specifically designed to instruct law students in the discipline of public choice. The book provides a comprehensive but nontechnical overview of interest group theory, social choice theory, game theory, and elementary price theory.

Amazon.com: Customer reviews: Public Choice Concepts and ...

Public choice, or public choice theory, is "the use of economic tools to deal with traditional problems of political science ". Its content includes the study of political behavior. In political science, it is the subset of positive political theory that studies self-interested agents (voters, politicians, bureaucrats) and their interactions, which can be represented in a number of ways - using (for example) standard constrained utility maximization, game theory, or decision theory.

Public choice - Wikipedia

This paper deals with the application and challenges of Public Choice Theory (PCT) in public-sector. The public-sector plays foundational roles in social change. Citizens and customers perception and expectation of the government is increasing. They are pressurizing the public-sector more than ever before.

Public Choice Concepts and Applications in Law : Maxwell L ...

Public Choice Concepts is a book that focuses on theory, analysis, and case studies rather than edited versions of cases as its primary pedagogical device. This alone should excite students who have read enough cases and yearn for class materials that allow them to begin to apply analysis of their own.

"Explaining the Importance of Public Choice for Law" by D ...

Filling the void of how to explain the decision-making process of institutional actors in legal settings is Public Choice Concepts and Applications in Law by Maxwell Stearns and Todd Zywicki. Because of its analytic

depth, Public Choice Concepts is likely to be recognized as the leading work on the subject for some time.

Profile | Maryland Carey Law

I am honored to announce the publication of PUBLIC CHOICE CONCEPTS AND APPLICATIONS IN LAW by my colleague Maxwell Stearns and fellow Dartmouth alum Todd Zywicki. This is the wonderfully rare text that persons in the field ought to consider using when they teach and the rest of us ought to very seriously consider owning (and reading!).

Balkinization: Stearns and Zywicki, PUBLIC CHOICE CONCEPTS

University of Florida lawprof D. Daniel Sokol has published a very good (and extremely favorable) review of co-conspirator Todd Zywicki's important recent book Public Choice Concepts and Applications in Law (coauthored with Maxwell Stearns), in the Michigan Law Review.. Danny writes that the book is "likely to be recognized as the leading work on the subject for some time."
