Robots for work and fun (Book, 2011) [WorldCat.org]

Examples of Fun Robots Will-E. We had fun building this robot. He may look familiar... We started with MLT-JR custom length tracks and added a simple shell and head. The motors are driven with a Sabertooth 2x5 Motor Controller. All the parts (other than the drive train) were made with our 3D printers. Then we gave it a quick paint job.
