LC11 it took about 5 minutes before I could connect from a laptop. After than initial delay, connection took right off. Initial speed tests, performing an actual file download from our office server, showed about 2.5 Megabits of speed sustained. Not much better than the Verizon MiFi we upgraded from.

**Correct Answer:**

## **first impressions ...**

I am thinking my issues are either a problem with the NAT within the SCH-LC11, or perhaps on Verizon's Carrier Grade NAT system (i.e. my device does not get a real internet IP, it get's a private RFC 1918 IP instead). I have only had this issue on 4G LTE, but to be fair, I have not really tested it on 3G.

**disconnects -**

## **Verizon Community**

One of the flaws of the LC11 is that the device consumes more power than a computer (or the charger that comes with it) can provide. So the battery will eventually run down even if the LC11 is connected to a power supply.
